

fiskaltrust

Initial Information

Here is some information about our services.

How **fiskaltrust** can help you mastering the Austrian Fiscal legislation changes.

- **(DIY, COMMUNITY)** If you implement the fiskaltrust.security-mechanism yourself using our documentation, You can use our security.Mechanism for free forever.
- **(CAREFREE)** If you or your customers opt in to the fiskaltrust.Carefree features, annual charges apply (-> fiskaltrust.Portfolio)
- **(HARDWARE)** In our attached fiskaltrust.Portfolio you find all prices regarding possible hardware configurations supporting our security.Mechanism and our fiskaltrust.Carefree packages.
- **(HELPING HANDS)** If you need additional help implementing our interface, we can help you with developer support and/or workshops at an hourly rate of € 200- excluding expenses.
- **(HIGH TECH)** If you need deep inside support for very high frequency scenarios or complex redundancy scenarios, we can help you with developer support and or workshops at an hourly rate of € 240- excluding expenses.
- **(JUMP START)** If you need additional help for the decision which way to go concerning the Austrian Fiscal Legislation "problem", we also can help you with workshops and/or support at an hourly rate of € 200- excluding [expenses](#).
- **(PROOF)** If your or your customers opt in to our fiskaltrust.Carefree packages, cash register certification and tax audit support is included. Otherwise we can help you with individual certification, please ask.

As you can see, we provide a wide variety of services, from free DIY solutions to consulting and programming services. To get an idea of costs, we would probably need to talk. If you have additional questions, feel free to contact us.
